

Kevin Lindholm

Software Developer

SUMMARY

Passionate and detail-oriented software developer with a deep interest in VR/AR and Web3. Proven track record of working with many aspects of the software development life cycle from backend and frontend development to Mobile application development. Looking to bring my skills to a tech company with global reach.

WORK EXPERIENCE

Software Engineer at 100devs, Remote

January 2022 — Present

- Collaborated with a team of developers to build modern and responsive web applications using best practices
- Built semantically structured full stack web applications
- Applied agile methodologies like SCRUM for project management

Recent Projects:

Let's do Korean (한국어 합시다) – Users can use a wide variety of interactive and entertaining quizzes and reading materials in order to improve their Korean Language proficiency (currently in development).

Mixers (Fullstack Web App) – Mixers Web App allows users to quickly and easily search a database containing all popular drinks and recipes. Selected drinks are then displayed with pictures and step-by-step instructions for creating the drinks in question.

PoetrySlam (Fullstack Web App) – Users have access to a library of poems that they can search through and display using the APIs to fetch information from a larger database with a big collection of different poetry works.

Other Projects: Fast-Hands dealers card game, StarGazers Collective Web App with NASA API integration, Pomodoro timer that enables users to apply the study method referred to as "Pomodoro Method" for focused study.

Full Stack Web Developer at Kevin's Consulting | Helsinki, Finland

August 2021 — Present

Created full stack web applications and static websites for different clients across small and medium-sized businesses. Also, consulted on SEO and social media strategy.

HR Intern at NLL | Luleå, Sweden

August 2016 — November 2016

Arranged recruitment campaigns targeted towards Universities focused on health care professionals in over 100 places around Europe.

Assisted in the integration of successfully hired doctors and their families (Accommodation, schooling, basic necessities, and cultural/integration training).
